SAVE THE DATES for these great opportunities

PER-220 - Emergency Response to Domestic Biological Incidents

September 17-18, 2025

Winfield, WV

A performance level course designed to help participants safely and effectively respond to a biological incident by using an integrated approach. The course provides detailed information about various biological agents and possible methods of dissemination. Participants will identify appropriate assessment and response actions and will review responder health and safety practices, containment measures, and tools that may be accessed during a biological incident. [More Info Here](#)

Team Approach to Foodborne Outbreak Response Class – PER-298

September 10-11, 2025

Sutton, WV

This course addresses the training needs of staff who have a role in foodborne outbreak response. Participants include individuals from state and local government agencies with experience in foodborne disease outbreak response and knowledge of their agency's outbreak investigation capabilities. This course identifies how the skills, resources, and expertise of all levels of government can be coordinated within an integrated national food system.
